Supported

HD Voice
Quality

Work with
PBX

Aegis XNTEL GSM Voice Terminal is a versatile telecommunication device that enables voice communication over GSM mobile networks by connecting standard telephone systems, EPABX/IP PBX systems, intercoms, or communication platforms directly to a GSM SIM network. It serves as an efficient bridge between fixed-line telephony and wireless GSM communication, making it an ideal solution for offices, industries, call centres, remote sites, and backend communication requirements.

AEGIS GSM VOICE TERMINAL VOLTE

The AEGIS GSM VoLTE Voice Terminal is an advanced wireless communication device designed to deliver crystal-clear voice calling over 4G VoLTE networks.

Benefits:

- Supports 4G VoLTE Voice Calling
- High-Quality HD Voice Communication
- Installation Type: Desktop / Wall Mount
- Compatible with Analog Phones, EPABX & IP PBX Systems
- Easy Installation & User-Friendly Configuration
- Compact, Durable & Industrial Design
- Voice Port: 2 RJ11 FXS Ports
- External High-Gain Antenna
- Network Support: 4G VoLTE / GSM (Airtel, Vodaphone,BSNL,Jio)
- Stable Network Connectivity with Low Call Drop

MULTIPOINT GSM FCT (4 PORTS-8 PORTS)

The 4 Ports/8 Ports GSM Voice Terminal is a high-performance communication device designed to provide multiple GSM voice channels through a single integrated platform. It enables businesses to connect multiple telephone lines or PBX systems with GSM networks for efficient voice communication, cost optimization, and reliable connectivity

Benefits:

- Multiple GSM/VoLTE Voice Channels
- Simultaneous Multi-Line Calling Support
- Compatible with EPABX & IP PBX Systems
- Stable & High-Quality Voice Communication
- SIM-Based Wireless Connectivity
- Easy Installation & Configuration
- Low Operational & Communication Cost

GSM FIRE ALARM /LIFT EMERGENCY BOX /AUTO DIALER

Aegis XNTEL GSM Fire Alarm /Lift/Emergency Box Auto Dialer is an advanced emergency communication device designed to instantly send voice call alerts through GSM networks during fire alarm activation or by Pressing calling Button. It automatically dials predefined mobile or landline numbers and delivers emergency voice messages to security personnel, building management, fire safety teams, or concerned authorities. The system ensures quick response and reliable communication even in locations where traditional telephone lines are unavailable.

Key Features:

- Automatic Emergency Voice Calling
- GSM SIM-Based Wireless Communication
- Multiple Predefined Number Dailing
- Recorded Voice Message Broadcasting
- 24x7 Continuous Operation
- Fast Response & Reliable Connectivity
- Compact & Industrial Design
- Instant Fire Alert /Lift Shutdown/Emergency Box Notification SMS

Applications:

- Fire Alarm & Safety Systems
- Residential Apartments
- Commercial Buildings
- Factories & Warehouses
- Hospitals & Educational Institutions
- Hotels & Shopping Complexes
- Industrial Safety Monitoring Systems
- Elevator Safety & Monitoring Systems
- Emergency Communication Solutions
